

POWERFULLY

INNOVATIVE

The Quincy QSI direct-drive rotary screw compressor is more than just your typical "box of air"- it's the leader in performance. The QSI uses an oversized airend with oversized bearings, which are more efficient, giving you electrical energy savings.

- Sound Level as low as 66 dBA
- Full-color touchscreen PLC
- Airend and bearings over 50% larger than the competition's
- Full range of 50-100 hp models
- Integrated air treatment system
- Standard 10-year Royal Blue Warranty

The Quincy QSI is powerfully designed.

Your nearest Quincy Distributor has all the details. Call 251.239.2783 or visit quincycompressor.com/qsi/ps.

Introducing the NEW QSI 245i - 500i

Quincy's patented rotors are more than 50% larger than the competitors, turn slower, produce more acfm per brake horsepower and use less energy in the process. Powerfully Innovative.
